\$21,920,393 State Road Work Total In County

Projects Include New River, Canal Bridges; Interstate, Local Jobs

(Special From Springfield) Road improvements in Madison county during the first 11 months of 1963 total \$21,920,393, it was announced today by the state highway division. The money was spent on widening the Mississippi River and Interstate construction and involved 40 projects.

The biggest items were \$3,189,956 for 1.49 mile of divided four-lane pavement on Interstate 270 from west of Mitchell east, and \$3,187,500 for the substructure for a bridge over the Mississippi River at Chain of Rocks for Route 270.

Ramp construction and frontage roads were 95% completed as of Dec. 1, and the bridge substructure work was 60% completed.

The \$21,920,393 total includes money completed or under construction this year and does not include a proposed \$270,000 project slated for this year to widen Nankook road north of Madison avenue.

One Granite City project, costing \$210,000, called for a traffic control system at 20th street and Edwardsville.

Canal, River Bridges — Also listed in this year's Madison county projects was \$1,967,938 for substructure for bridge carrying Interstate 270 over the Chain of Rocks canal. The project is 40% completed. A \$1,870,174 contract for parallel bridge over the canal has been awarded but work had not been started on Dec. 1.

Another large project called for \$2,046,642 for 1.56 mile of concrete base course and concrete concrete surface on Route 111 from U.S. Byroad 66-40 to Ponton road. It was completed in July.

Parallel highway separations carrying Route 270 over the U.S. 67a (Route 3) west of Mitchell were completed last June as a part of \$280,000 project work was started on track removal and resurfacing of the Venice Broadway viaduct under a \$95,672 contract.

A \$98,734 project for 2.56 miles of paving and 1.4 mile of widening on U.S. 67a (Route 3) — the Great River Road — south of Hartford is 80% complete. The state also spent \$1,709,351 for 4.22 miles of grading on Interstate Route 27, 45 miles of paving on Illinois 127, and U.S. Byroad 66-40 and a highway separation carrying Old Glen Canyon road over Route 270, now 95% completed.

7-Cent Hourly Pay Increases For 770 Depot Employees

Pay increases averaging seven cents an hour for 770 hourly employees at the Granite City Army Depot will start the first pay period after Christmas Eve, it was announced Friday afternoon at Washington by Cong. Melvin Price.

Hourly scales for the workers involved now range from \$2.06 to \$4.10. The increase was granted by the Army-Air Force Wage Board for "wage board" employees of the government.

The increase will amount to an annual payroll hike of about \$112,000.

Voters Leagues In Wards Being Organized For GC

Richard Allen, chairman of the Democratic city committee, has announced the formation of voters leagues in the Fourth, Sixth and Seventh wards.

The chairman are Donald E. Parnley for the Fourth Ward, Ernest E. Hill for the Sixth Ward and Harold Hillmer for the Seventh Ward. Allen expects formation of voters leagues in the other wards in the city within a few weeks.

He said the purposes of the leagues are to increase grass roots participation in politics at all levels, to aid in the dissemination of information to the voters on candidates and issues, to encourage qualified persons to make themselves available for public service and to provide liaison between elected officials, precinct committeemen and voters.

Allen said that although precinct committeemen are responsible for formation of the leagues, they are not expected to remain stepchildren of the precinct committeemen's organization.

"We anticipate, rather, that they will become a dominant factor in Granite City politics, encouraging qualified persons to seek office and assisting the voters on such issues as the recent Granite City sewer line issue."

"The political complexion of each ward voters league will reflect that existing in the ward in most instances the league will be heavily Democratic in party affiliations."

"However, the leagues are bipartisan, and we invite the participation of all persons regardless of party affiliation," Allen said.

Attempt To Thaw Water Pipe Causes Blaze

Efforts to thaw frozen water pipes caused a fire at the four-room frame home of Thomas Reynolds, 1704 Minerva avenue, last 12:50 p.m. Sunday. Firemen from the Nankook station set the loss at \$25.

Reynolds told firemen he had tried to thaw the pipes Sunday morning and that an ember apparently had ignited the wall insulation.

The fire spread to the roof and caused a fire in the attic. Firemen arrived within five minutes and extinguished the fire. The damage was estimated at \$25.

County's Budget Ready For Adoption

Record \$3,094,430 Goes To Board Wednesday; Seek Dec. 24 Holiday

Madison county's \$3,094,430 budget for 1964 tops the agenda for Wednesday's meeting of the county board of supervisors to be held at 10 a.m. in the courthouse at Edwardsville.

Approval of the budget and tax levy will be sought along with a resolution to boost the monthly rate for the county nursing home at Edwardsville to \$135.305 over the 1963 total. This is the first time the county budget has topped \$3 million.

Included are the following items: \$1,626,370 for general county purposes, up \$245,535; and \$1,468,060 for special purposes, a decrease of \$80,140.

To meet the general purpose budget, a tax levy of \$725,070 is proposed, but the maximum tax extension permitted under state law will be \$747,389.

The county's budget was unveiled home at Edwardsville on Dec. 14 and is \$135.305 over the 1963 total. This is the first time the county budget has topped \$3 million.

Included are the following items: \$1,626,370 for general county purposes, up \$245,535; and \$1,468,060 for special purposes, a decrease of \$80,140.

To meet the general purpose budget, a tax levy of \$725,070 is proposed, but the maximum tax extension permitted under state law will be \$747,389.

Budget Boost Reasons

The budget boost is caused partially because of the estimated \$146,360 cost to conduct elections next year to conduct the general election system. The budget also provides for \$10 monthly pay increases for county employees.

Recommendations to be presented by the county zoning board of appeals, based on hearings held Friday, will be as follows:

Recommendation to be granted for Clyde Moore to receive a special use permit for a private horse riding club and recreation area at 3209 Maryville road, now zoned R-3 one-family.

A two-year extension of the National Defense Education Act would mean about \$18,000 for the Granite City district and \$1000 or \$2000 for Madison and Venice schools. The federal government provides 50% of the funds for approved purchases of school equipment.

The bill approved and sent to the President includes \$327 million for the 1962 manpower training program; authority to increase federal aid for job training schools from the present 50% to 75% of the cost; \$300 million for vocational education; \$227 million for impacted schools; and \$304 million for national defense education, part of this amount going to boost college student loan funds from \$90 million to \$135 million.

0 DAY WITHOUT A TRAFFIC DEATH

Granite City Supt. Harold M. Koser made several trips to Chicago and Washington to testify on behalf of the legislation.

SKATERS AND NON-SKATERS were evident on the Wilton Park ice rink used by hundreds both Saturday and Sunday. Mean Thieves Smash Six Christmas Trees At School

Congress Passes \$160,000 Aid To Quad-City Schools

Quad-City public schools will have about \$160,000 richer if President Johnson signs a school aid bill passed Friday by the Senate after House action late Thursday. He is expected to approve the measure.

Granite City schools anticipate about \$30,000 a year and Madison schools about \$10,000 a year under a two-year extension of aid to districts affected by the impact of non-paying federal installations and defense work.

Granite City does not qualify with a sufficient percentage of children of federal employees.

A two-way radio set worth \$225 and wire valued at \$150 were taken by burglars who smashed a floor glass in a south door last night to gain entrance at Nelson Electric Co., 2216 Nankook road.

Police said the thief apparently suffered a severe cut injury there was blood in the office and also in a truck parked at the rear which also was looted. The smashing of the glass and 200 cigar coupons, two flashlights, a half-roll of four-cent stamps and about nine batteries were taken from the office along with two 1500-foot reels of wire.

When the truck, which was broken open, the thief stole three 200-foot reels of wire along with two rolls of wire which were 125 feet and 25 feet in length.

A two-way radio set on civil defense band was stolen from the auto at Greenwood City, 2128 Delmar avenue. It was reported to police Saturday afternoon. The car was parked in front of his home and a window on the side was broken to steal the receiver and transmitter unit.

Granite City police are questioning a man, 19 and 20 years of age, in connection with the smashing of a pay telephone at an outside booth, Marshall and Fifth avenues. The damaged phone was discovered about 11:50 p.m. Sunday and the men were taken into custody at West 23rd street and Illinois avenue, near 2:25 a.m. today. The coin box at the machine was intact and was not looted, the officers reported.

Two Boys Break Through Ice While Sledding Sunday

Two area boys nearly froze to death in neck-deep water after their sled broke through ice on a deep drainage ditch at about 4:15 p.m. Sunday along Highway 4 two miles north of Granite City.

They are Tracy Smith, 11, son of Mr. and Mrs. Franklin A. Smith, and Steve Pittman, 13, sons of Mr. and Mrs. Orlan Pittman, both of Rural Route One.

They are in good condition today at St. Elizabeth Hospital.

The two were passing through a culvert under the highway when the ice broke. While struggling in the water, Pittman pushed the Smith boy onto solid ice and told him to go for help.

Smith made his way to the farm home of Robert Strong, about 200 yards away, suffering from shock and exposure. After determining what happened, Strong called the Warren Alameda, 208 East Chain of Rocks road, hurried to the scene where they were taken to the hospital.

A Granite City emergency truck and Madison county sheriff's deputies were called to the scene.

Becomes III Working On Auto In Garage

Police and an ambulance were dispatched to 1343 Meridian street about 9:15 a.m. Sunday to Robert Bunker, 47, of that address, who became ill while working on his auto in his closed garage.

Officers said he apparently was a victim of carbon monoxide poisoning. The ambulance driver gave him oxygen before taking him to the hospital for further treatment.

Bunker, who was in his home when the emergency vehicles arrived, said he was trying to repair a defective automatic choke on his auto.

Miss Joyce E. Justice One Of Four Hurt Friday When Auto Hits Bridge

A Granite City high school junior, Joyce Elaine Justice, 16, one of 13 children of Mr. and Mrs. Durrell Justice, died about 3:15 a.m. today of injuries suffered Friday night when an auto in which she was riding struck a bridge abutment near New Baden.

Three other high school girls were injured in the same crash and two are hospitalized here after first being given treatment at St. Joseph's Hospital, Breese, in 29 other accidents in and near the Quad-Cities, ten per-

Miss Justice, whose parents reside at 30 Briarcliff, was a passenger in an auto driven by Miss Patricia Oberschelp, 15, Oberlin, a high school junior, of 2913 Pershing avenue. The car went out of control on a patch of ice along county road at the line of Clinton and St. Clair counties and crashed into the bridge abutment. State troopers said the auto was demolished.

Miss Oberschelp is hospitalized with a fractured left leg. The four passengers, Sherry Moss, 17, a senior, of 2121 Nankook road, gave treatment for abrasions to her jaw, right knee, left shoulder and left hip.

Returning From Dance — It was learned from one of the girls families that they had been to a dance at Trenton and were enroute home when the crash occurred.

Miss Justice, a native Graniter, suffered fractures to her nose and both legs and concussion. She was transferred to St. Joseph's Hospital Saturday with the others and then was transferred to Barnes Hospital, St. Louis, last night.

Extensive Fire In Zero Weather At Madison Home

Fire caused extensive damage Saturday about 7:15 a.m. to the home of a local woman, three-room one-story frame home located at 1610 Third street, Madison.

Damage, which has not yet been estimated, was heaviest to the building. Furniture inside the home was covered with tarpsaul by the firemen.

The blaze was attributed to an over-heated furnace in the basement. Flames followed the flue and spread up a wall separating the kitchen and living room. The fire reached the attic and then went through roofing paper to wooden roof shingles.

Firemen used an exhaust fan to clear away the dense smoke and used water to bring the fire under control quickly despite the near-zero temperature, which caused ice to form rapidly.

It was necessary to remain at the scene for three hours, however, because nearly all of the wooden shingles were smoldering or burning. Firefighters extinguished the fire and removed them one by one, leaving the house virtually roofless.

Fourteen firemen participated. There were no injuries.

Compared to a year ago, non-manufacturing shows a 205 decrease and manufacturing had a gain of 484 jobs (359 durable and 125 non-durable goods).

First Nurses Aide Course Under Gov't. Plan Completed

Twelve students have completed the first nurses aide course at St. Elizabeth Hospital conducted under the U. S. Manpower Development and Training Act, it was announced Friday.

Mrs. Mary Beth Hughes, R.N., instructor, said the final tests were given Thursday for the students to be rated, and they now are at the hospital's hiring list.

For four weeks, the students took part in classroom studies and practice and spent time in the surgical and medical divisions at the hospital, doing actual patient care under direct supervision.

The first week was spent entirely in the classroom for study of the principles and ethics involved in the operation of the hospital and the basic procedures of patient care. They also practiced giving baths, making patient beds, giving back runs and serving tray meals.

During the second week they spent three hours a day in the hospital divisions putting to use the procedures studied in the classroom sessions. The remaining four hours a day were spent in the classroom for learning advanced procedures, such as the proper way to take temperatures, pulse, respiration and blood pressure, which were practiced first in the classroom before being carried out in the divisions.

Other procedures covered were the admission and discharge of patients, pre-operative and post-operative care and isolation techniques also were covered.

PROUDEST PUPILS at Washington grade school Thursday afternoon were these grandchildren of Ellis Angle sr., 2313 Independence drive, who took advantage of the snow to call for them in a horse-drawn, home-made sleigh. Pictured immediately at the left of the sleigh is Sheila Diel, five, a kindergarten student. Three-year-old Kevin Diel, just along for the ride, is standing behind the two seated youngsters, Marla White, five, a kindergarten pupil, and Eugene Diel, six, a first grader. The horse's name is Prince. Marla is the daughter of Mr. and Mrs. James White, 2801 Denver street; the other three are the children of Mr. and Mrs. Robert Diel, 2915 Harding blvd.

School Officials To Hear Director Of State Board

Richard G. Browne, executive director of the Illinois Board of Higher Education, will address an invited 300 high school principals, assistant principals and guidance counselors Thursday, speaking at 8 p.m. at the Sunset Hill Holiday Inn, located near the new Southwestern campus of Southern University.

Lawrence E. Tallman, SWIU associate professor in guidance and coordinator of academic student counseling, said Browne, an SIU alumnus, will talk on the subject, "Will Your Graduates Be Ready for College—Will College Be Ready for Them?"

Quad-City school administrators and counselors will attend. Browne, who began his teaching career in 1922, is a recognized Illinois educator and researcher. He joined the faculty of Illinois State Normal University in 1928, and in 1946 was named chairman of the social science department there.

Role Of Board
In 1951, he was named executive officer of the Teachers College Board of Illinois, retiring in 1961 to become executive director of the state Board of Higher Education. That board, created by the 1961 Illinois Legislature, has the job of seeing in advance the state's needs for public higher education and to figure out how to fulfill them without waste or duplication.

Browne also has served on a number of state education committees, and was a member of Governor Stevenson's advisory commission on education.

The state board has a voice in the planning and growth of SWIU and other universities operated by the state government.

Public schools represented at Thursday's meeting will be those located in the area served by SWIU.

SWIU Makes 10 Campus Purchase Settlements

Out-of-court settlements of 10 of 35 condemnation suits filed by Southwestern Illinois University against property owners in the area of the new Quad-City-Edwardsville campus was disclosed last week in Madison county circuit court in Edwardsville.

Included were Mr. and Mrs. Harry Lewis sr., who have six-acre tract of land. Details of the settlement were not disclosed.

At a special hearing by the court, evidence was introduced by the university in an effort to show why condemnation suits have been necessary in obtaining the campus site.

Ten attorneys, including three representing SWIU, and about 35 spectators and witnesses attended. University officials reported on state appropriations for acquisition and development of the new campus and on projected student enrollment.

An SWIU attorney who handled the transaction refused to quote the cost for the Lewis land, even though reminded that public funds acquired through the vote of the people were being used.

He said this was at the request of the Lewises who expect criticism from their friends and relatives in the bluff area for reaching an agreement. The Lewises have strongly opposed acquisition of property by SWIU for the past five years.

Getting started on defense of their Southwestern Conference title was no problem Friday night for Granite City high school's wrestlers.

The Warriors didn't lose a match in defeating the Wood River Oilers 38-2, Wood River, previously unbeaten, escaped a shutout when Bill Haufe, a 4-4 draw with the Warriors' Mike Nicholls in the 133-pound class.

Coach Bill "Red" Schmitt's team, chasing a seventh consecutive conference title, is tied with Edwardsville (1-0) for the conference lead. Next are Wood River, (2-1), East St. Louis (0-1) and Belleville (0-2).

The Warriors return to non-conference competition at 4 p.m. tomorrow with a visit to Mc-

Cluer high school in Ferguson. Then, Friday night, they take on Belleville—in a match here.

McCluer Returns Eight

"We beat McCluer pretty easily last year," Schmitt noted. "But looking back in the score book I found they have eight of their boys back and we have only three." The circumstances were identical last week when the Warriors took on strong Riverview Gardens and escaped with a tight 24-19 victory.

All but one of the individual victories at Wood River were by decision. The exception was Steve Cavanaugh, who pinned Tom Cherry in a swift 27 seconds. The winners of the 112-pound bout, Granite City's varsity record-

Devils Meet Bottom Team At Highland

Seeded third, the Venice Red Devils will open in the St. Paul Tournament at Highland tonight against Valmeyer's Pirates. Game time is 8:15.

Valmeyer is ranked last in the eight-team tourney. Assumption of East St. Louis (3-1) is seeded first and host St. Paul (5-1) is second.

Following Venice in the ratings are Livingston, Lincolnwood of Raymond, Ashley, St. Peter & Paul of Waterloo and Valmeyer.

Win Consolation Final

The Devils won their sixth game against two losses Thursday night in the consolation final of the Madison-Clinton-Macoupin Conference Tournament at Breeze. The victim was Worden 61-45.

"We were still sluggish," said Coach Bill Ohlendorf, whose squad has been troubled by a variety of cold-weather ailments. "I hope the weekend of rest helps the boys."

The Devils, who hit only 30% from the field in the first-round loss to Livingston, made just 29% Thursday night with 27 of their unusually high total of 94 shots hitting the mark. They made only 46% of their free shots.

Dominate Rebounding

Ken McCallister's 19 rebounds led Venice to a 68-38 domination of the boards.

Paul Sittion grabbed off 13 and Mike Edwards and John Robertson had 10 each.

The tourney runs tonight through Saturday but no games are scheduled for Friday night.

Lilley, Hiles, Debevc In Key Roles As GC Upends Belleville, East Side

The blues have melted into rose-tinted optimism at Granite City high school.

At this time last week, the Warriors were still downcast about an 83-54 basketball drubbing administered by Collinsville. The sub-par performance against the defending Southwestern Conference champion was enough to make many Granite City fans look ahead on the schedule with gloomy apprehension.

But the outlook is much brighter today in the wake of Friday night's 60-56 victory over Belleville and Saturday night's 54-34 success against East St. Louis.

The two home victories gave the Warriors a 2-1 conference record, second only to Collinsville's 3-0 mark. Next are Alton and Edwardsville at 1-1, Belleville and East St. Louis, both 1-2, and Wood River 0-2.

A game Friday night at Edwardsville and an early January contest at Wood River face the Warriors before Collinsville's here Jan. 17 to start the second round of conference games. That could be the telling game of the Southwestern season.

In addition, the Warriors will have the Postville Holiday Tournament and the Dupu Invitational Tournament in which to sharpen their talents for that big battle.

Jim Profitit Alling

The Warriors went into last night's games with Jim Profitit, starting guard, out with a pulled hamstring muscle in his right leg. Profitit was hurt in the closing minutes of practice Thursday.

But 5-8 reserve Vince Debevc, who helped fill in for Profitit, and regulars Larry Lilley and Joe Hiles played major roles in leading the Warriors to victory.

Debevc came off the bench Friday night to harass the Maroons' offense with five steals. The next night against the Flyers he made seven steals and did an excellent job guarding another little guy, Coy Nunn.

Lilley, the team's leading scorer, did the job both ways. He scored 19 points against Belleville and 21 against East Side and made a total of 11 steals in the two games.

He led a six-footer, led the Warriors to rebounding domination in both contests, grabbing off 31 against Belleville and 14 against East Side. He also had a total of 28 points.

Maroons Ignore Hiles

Belleville left Hiles unguarded under the basket three times, the final minute and 20 seconds. The first time he took a pass from Debevc and scored to put Granite City ahead 57-52 and virtually clinch the game.

The other two times, he fouled.

Hiles made seven of the Warriors' last nine points in that game. Lilley's shot with 3:30 remaining tied the game at 51-51 and then Hiles took over. He scored three points when two players, Della Gierman and Jay Westcott, fouled off midway through the fourth quarter.

East St. Louis took a 29-28 halftime lead and Coach Andy Sullivan feared his Warriors were tiring. But they came back to outscore the Flyers 16-11 in the third period.

In javay action, Granite City beat Belleville 44-40 but lost to East St. Louis 44-30.

Top scorers were Elmer Wortham (15) and Dana Lakatos (10) for Granite City and Charles McKee (10) and Jim Gleaser (9) for Alton.

ALL ALONE. Granite City's Joe Hiles is about to sink a key field goal in the Warriors' victory over Belleville. Hiles found himself unguarded under the basket with 1:20 left in the game. Ball-handler Vince Debevc found him, too—with a long pass—and Hiles' bucket put the Warriors ahead 57-52 and clinched the victory. Belleville's Dave Englebreight (13) falls back as if in surprise while teammate Tom Muskopf (right) and Warriors Mike Rousseau (with glasses) and Jim Cant watch Hiles score.

Madison Loses 62-55 In Tournament Final

Ten quick points in the third quarter stunned the Madison Trojans Saturday night and Columbia won the 62-55 victory in the championship game of the O'Fallon Invitational Tournament.

Coach Earl McClanahan's Madison players had taken a 38-33 lead when their Midwestern Conference opponents got hot. Suddenly, the score was 43-38 in Cahokia's favor and they couldn't catch up.

The Trojans led 30-26 at the half after hitting 12 of 22 field goal attempts. But they cooled to 8-19 in the second half. Fouls also hurt Madison's second-half effort. The team had six in the first half but hacked out 14 in the final two quarters. Madison led in rebounding 24-22, with Dale Turner getting nine.

Cecil Bell, who kept Madison hopes alive in the second half, ended up with 22 points. John Summers hit 12.

The Trojans had opened in the tournament Thursday night with a 61-46 victory over Columbia Eagles.

Paul Link and Turner, with 12 each, and Summers and Bell with 10 each topped the scoring. With a 3-2 record, Madison plays tomorrow night at Dupo in its second conference game. The Trojans are 1-0 in Midwestern play, while Dupo has a 1-2 record.

Rams Revive, Deal Lovejoy 58-45 Defeat

When the Lincoln Rams went to the dressing room at halftime Friday night, Coach Stan Lynch was more than a little dismayed.

They trailed a much shorter Lovejoy of Brooklyn team 27-23, and charts showed a whopping 18 mistakes for the Rams. "We really talked it over at halftime," said Lynch, the forceful moderator of the session.

The results of the confab were remarkable. The Rams charged back onto their Venice court and outscored Lovejoy 19-6 in the third period. Final score was 58-45 in favor of Lincoln.

"We made only three mistakes in the entire second half," Lynch noted. "The boys came back and started blocking shots and hitting the backboards—both offensively and defensively."

Lynch saw two reasons for the Rams' first-half letdown: 1. Tension because of the traditional rivalry with Lovejoy. And 2. Relaxation because of Lovejoy's lack in height. When these two opposites collided, the Rams' pulse was shattered.

Top scorers for Lincoln were Calvin Dixon with 17 and Percy Dillon 13. Three Lovejoy players were in double figures — Lionel Brown 13, Cornell Bailey 12 and Arthur Spinks 10.

The Rams, with a 1-3 record, tackle the tough St. Louis Vashon club tomorrow night in Venice. Vashon recently won 75-71 over Lincoln of East St. Louis, a team that defeated the Rams 77-52.

Ranft Ahead Of Gov. Kerner In Trade Mission Followup

Tri-City Port Board Chairman Carl A. Ranft is a step ahead of Gov. Otto J. Kerner in taking advantage of the knowledge he acquired while on an Illinois Trade Mission to Europe in October and November.

Ranft received a letter Friday from Gov. Kerner urging him to relay the data he gathered to other businessmen. Ranft two weeks ago submitted a report to the Tri-Cities Chamber of Commerce, and earlier had granted an interview to the Press-Record and presented a report to the port authority commissioners.

The letter from the governor stated:

"I would like to take this opportunity now that we have re-

turned home and are back at our desks to thank you for being a part of the Illinois Trade Mission to Europe. It was a great success and your participation helped make it so.

"Aggressiveness of the American businessmen remains one of the greatest tools of our economy and reflects the spirit of our state and country.

"Now that the mission is over, I ask you not to forget that there is great missionary work still to be done. You can contribute greatly to your state and its economy if you pass your experience on to your fellow businessmen.

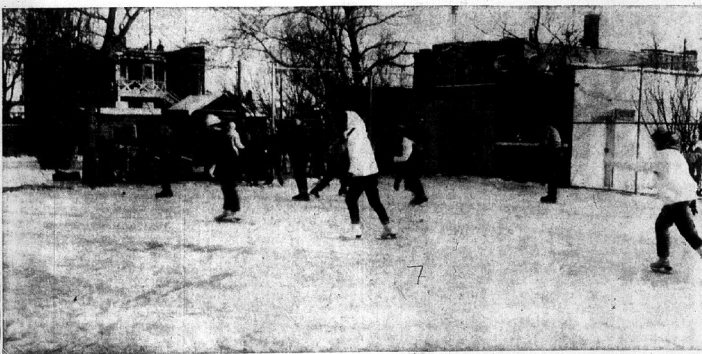

"Tell them of the opportunities in export and of the importance of this aspect of commerce, not only in terms of individual profits, but in terms of the strength of Illinois and the nation."

An auto driven north on Wabash avenue by Bobby L. Several sections of the fence were hurt, but no one was hurt, county authorities said.

Burglars Get Busy During Holiday Season

Christmas, New Year's and holidays in general are lucrative times for prowlers and burglars. It was pointed out today by local police authorities.

"Each year there are more house burglaries during Christmas presents. Burglars know the place will be piled high with presents and many of them are valuable.

"Precautions Recommended
Precautions recommended by the police departments are—
Lock the house securely. Keep

all doors and windows locked, including garage doors.
Leave the blinds open with a light burning in the house in another room other than the front room.
Eliminate any reasons that might disclose your absence. Cancel all deliveries, such as milk and the paper, because thieves many times will police a house with such items and mark them for burglary.
Fires also result when persons leave home during the holiday and forget to disconnect the Christmas tree.
The police also warned that thieves also search for autos with seats piled high with Christmas shopping. They suggest placing the gifts in the auto trunk and keeping the auto locked when parked.

"Everybody knows that this is the time of year when people go on vacations or visit and have their homes stocked with Christmas presents. Burglars know the place will be piled high with presents and many of them are valuable.

Lawyers Hear Of Plans For E. St. Louis Court

With East St. Louis providing two courthouses at no cost to the county, plans call for full use of the facilities as a trial court and family court, Chief Judge Richard T. Carter of the 20th Judicial Circuit announced Friday in Belleville at a meeting of the Illinois Bar Association Institute on Continuing Education.

Quadrant attorneys were among those attending. Many Quadrant and Alton lawyers, in urging full-time court services for their cities, are citing East St. Louis as an example of a large population center which will have regular court services even though it is not a county seat. The new state judicial system will go into effect Jan. 1.

Only a few such agreements are in effect at military bases in the United States.

THIS I BELIEVE

I BELIEVE IN GOD the Creator of heaven and earth. I believe that there is One God (1 Timothy 2:5), and that God is One not several (Galatians 3:20). I believe that God the Father is the only True God (John 17:3), and that He came in a Son and Jesus Christ (John 14:10; 2 Corinthians 5:19). I believe that the Son of God is God and man in Unity by means of the virgin birth (Isaiah 7:14; Matthew 1:23; Isaiah 9:6; Micah 5:2). I believe that the Holy Ghost is the Spirit of the Father or God promised to be poured out upon all flesh (Acts 2:17; Matthew 10:20) and that all true believers may receive the Holy Ghost today the same in measure and manner as exemplified in the book of Acts (Acts 2:14; Acts 10:44-48; Acts 19:3-7). I believe that God the Father is Omnipotent in the entire universe (Ephesians 4:8; Psalm 130:7-10; Acts 17:24-29). I believe that God projected Himself into the flesh by means of the Virgin Birth and was identified as Son of God because of the birth circumstances of His entrance into the world (1 Timothy 3:16; Isaiah 9:6), and that under these circumstances, God particularly limited to the life of man proved as man, though beyond this life He was God Unlimited in His Fatherhood and Omnipotence (John 17). I believe that the Holy Ghost is a measure of God designated by God to sustain a particular relationship to humankind, since every scripture except one speaks of the Holy Ghost in connection with humankind (1 Peter 1:2). I believe that God dwells in the Universe, and in the Church.

LIVESTOCK HEALTH CERTIFICATES

Laws requiring permits and health certificates for the transportation of livestock into Illinois are being enforced strictly by the Illinois Department of Agriculture.

Dr. Paul B. Dohy, superintendent of the Agriculture Department's Division of Livestock Industry, last week explained procedures necessary to obtain permits and certificates.

Permits can be obtained day or night by contacting the Livestock Industry Division, located at the State Fairgrounds in Springfield, by letter, telephone or telegram.

"The Agriculture Department is following a policy of strict enforcement of the laws requiring permits and health certificates," Dr. Dohy said. "Although this strict vigilance may seem unnecessary to an individual desiring to import animals, the requirements are the outgrowth of studies and tests conducted in numerous states and are recognized as the best procedure for protecting the health of Illinois livestock."

Girl, 8, Hit By Car Today

Bruses and a forehead cut were suffered about 8:50 a.m. today by eight-year-old Lyna Mae Pickett who was struck by an auto as she dashed into the street in the 2800 block of Circle drive.

The girl, daughter of Mr. and Mrs. Robert Pickett, 703 Twenty-eighth street, was taken by ambulance to St. Elizabeth Hospital, where she received emergency treatment, x-rays and was released. She is a third grader at Logan Annex school.

Police said she was waiting for a bus with other youngsters and ran into the street. Jewel Weaver, 34, of 2918 West 20th street, driver of the auto, told police she was going south, and the girl, but that her auto skidded on the icy roadway when she applied her brakes. The girl was knocked down.

A young girl who had alighted from an auto upon returning home from Sunday school program practice Saturday afternoon dashed into the street and the side of a passing truck in the 4000 block of Braden avenue.

Given emergency treatment at St. Elizabeth Hospital was eight-year-old Rose Fry, daughter of Mr. and Mrs. Thomas Fry, 4023 Braden avenue. She suffered bruises to her right hip, arm and abrasions to her face. The mother said the girl, a third grade pupil at Nantux school, was knocked down by the impact. The mishap was not reported to police.

Auto Strikes Girl, 7

Vicky Mayo, seven years old, 1682 Third street, Madison, was hospitalized after being hit by an auto near her home at 5:50 p.m. Thursday.

She had no apparent injuries but sustained a blow on the head, resulting in a decision to admit her to the hospital overnight for observation.

The motorist, Robert Brooks, 53, East St. Louis, was driving east on Third street near Alton avenue and said the girl was running across Third street. He applied the brakes but the auto slid against her. No charges were filed.

The child was taken to the hospital by Brooks.

Driver Hurt On Bridge

A St. Louis motorist, Hubert Green, 30, suffered cuts about 6:20 a.m. Sunday when his auto was demolished in a two-auto crash on the east end of McKinley Bridge. He was given emergency treatment at St. Elizabeth Hospital.

Police said the front of his auto was virtually ripped off in the crash. The other driver was David Thompson, 1216 Logan street, Venice, who escaped apparent injury. Green's auto hit the east superstructure of the bridge and careened into Thompson's eastbound auto, police said.

Green was admitted to the hospital for observation.

Robert Neumeyer, 27, Frontenac, Mo., was charged with following too closely after a two-auto collision Saturday afternoon in the 2300 block of East 24th street. Police said he was going east and struck the rear of the auto of Herbert Jones, 60, of 2325 East 24th street, who was making a left turn into a driveway. Police said Jones suffered minor injuries.

Two Women Hurt
Two persons were injured in an auto accident at 9:30 p.m. Sunday at the intersection of

Several GC Schools Nearing Maximum Size

With the Frohardt and Nantux old grade schools and some other schools already at or close to the maximum feasible size, current Granite City school district plans call for the completion of several other schools in the next several years.

The five classrooms to be added at the Mitchell elementary school and the four to be added at Wilson grade school during 1954 will be the most that heating systems and other basic facilities can accommodate.

A 1953 six-room addition at Mitchell has just been placed in use. The ten general classrooms scheduled for 1954 at Prather Junior high school will round out the basic design of that school but conceivably might not be the last built on the large campus there. Prather currently has 12 regular rooms and nine special classrooms, some of which have had to be used for general purposes.

Second High School?
The 700-pupil cafeteria and six or eight classrooms proposed at Granite City high school under a bond issue to be voted on in the spring of 1954 would end construction at GCHS. The present cafeteria would be converted to classrooms.

Possibility of constructing a second high school would be considered if further enrollment growth caused crowding after completion of that addition.

In proceeding with bond issue plans this month, the board ignored the advice of Assessor Von Dee Cruse, who has urged that rural area assessments be raised before submission of bond or tax rate proposals to voters.

Formal consideration of a letter from Cruse is scheduled for the next receipt of legal advice, Jan. 14.

Views Of Assessor
The letter made reference to appraisers' estimates that Nantux and Chouteau townships are assessed below the average of other city valuations. The comments by Cruse included the following:

"What does this mean to the school district? It means that as the district fights for funds, it is being deprived of thousands of thousands of dollars that could be used to provide the additional classroom facilities and the better educational opportunities our children need."

"How many dollars are you losing? Well, it has been estimated to range between \$300,000 and \$500,000 per year, not just this year or next, but every year from now on."

What could the school district accomplish with an additional \$300,000 to \$500,000 each and every year? You know the answer to this question better than I.

Members of the school board, as representatives of the public, which demands a good education for its children, are having a difficult task made even more difficult by being deprived of the additional funds so necessary to provide a better school system. The property owners of Granite City are being deprived because their neighbors, in the other two townships, are not paying their fair share of the cost of operating the school district.

It is a known fact that the school district is hard-pressed for money, but before any bond issue or tax rate increase can possibly be passed these inequities must be eliminated. The Granite City taxpayers could not in good conscience be asked to approve such increases until all property owners, within the school district, are paying their fair share of the financial burden of the school system.

Procedure Suggested
The situation can be corrected. The law provides a way for inequities in assessed valuations to be equalized between townships as well as within townships.

I strongly urge that you authorize the administrative personnel and the school district's attorney to take the necessary steps to have the Board of Review instruct the county treasurer to make a survey of sales within these townships with the view of having said townships reassessed for the 1953 tax year.

I must stress in closing that I feel this matter highly important and that the owners of property in the city of Granite City have shouldered their share of the cost of the school system for quite a while and it is time for them to receive the assistance of their neighbors in the other two townships within the district.

Before they can be asked to do more, every effort must be made to assure them that all taxpayers are being treated equitably and fairly.

Please feel free to call upon me or my office for any assistance or help that you may require in this matter.

Highway 3 and Bypass 66, state police reported.

They are Mrs. Claire Hyman, 33, of Sepulveda, Calif., a passenger in a car driven by her husband Frank Hyman, 36, and Gertrude Culver, 35, who was a passenger in a car driven by Floyd Culver 56, of 2033 Madison avenue.

Mrs. Hyman was taken to St. Elizabeth Hospital where she was admitted with abrasions over the right eye and to the side of the left eye and with a sore knee. The Culver woman had minor injuries and there was no report of treatment at the hospital. State police said Hyman ran a stop sign and hit Culver in the right side.

Auto Hit By Boxcar
Suffering knee injuries when his auto was struck by a railroad freight car at the Kerr street crossing in Venice at 1 a.m. Friday, Charles H. Cross, 63, Belleville, was taken by ambulance to the Missouri-Pacific Hospital, St. Louis, for treatment.

Venice police learned from James Fuchner, East St. Louis, an engineer with the Gulf, Mobile and Ohio Railroad, that boxcars were being moved past the crossing as part of the night's switching operations. A rolling car hit the left front of the auto, which was traveling east.

Auto Hits Post
Wilson McCaskill Jr., 31, of 311 Mercedia avenue, Venice, was admitted to St. Elizabeth Hospital at 4:40 a.m. Sunday after his automobile struck a

post. He had a cut on the forehead and a small abrasion on the right hand. He said he was retrieving something he dropped on the floor when the accident occurred. No report on the crash was available from authorities.

Driver Injured
Ronald L. Glasgow, 28, of 2208 Grand avenue, received emergency treatment at St. Elizabeth Hospital after his auto struck a utility pole at the Edwardsville road rail crossing. He told Granite City police his car must have hit a slick spot, causing him to lose control. The front of the car was damaged.

How to be smarter than your wife (on the subject of Savings Bonds)

Of course, there's no question about who's smarter at your house on most subjects. But to remove any doubt as to who knows more about U. S. Savings Bonds, the Treasury Department presents this little quiz. You take it first so you'll know all the answers and then pop it on your spouse. Great for the morale.

1. A Series E Savings Bond reaches maturity in:
☐ 5 years ☐ 7 1/2 years ☐ 10 years
2. The money you earn from Savings Bonds is exempt from state and local income taxes.
☐ true ☐ false
3. You have to be an American to buy U. S. Savings Bonds.
☐ true ☐ false
4. Americans owned more Savings Bonds in:
☐ 1943 ☐ 1953 ☐ 1963

5. Uncle Sam will give you a new Bond free if:
☐ You accidentally toss it in the washing machine
☐ The neighbor's dog swallows it whole
☐ A thief steals it
6. It's hard to redeem a Savings Bond.
☐ true ☐ false
7. A Bond that costs \$18.75 will:
☐ Grow to \$25 and stop
☐ Keep on growing if you don't cash it in
8. If you have a large Bond, you can cash in just part of it.
☐ true ☐ false
9. The 20,000 banks and other issuing agents which sell Savings Bonds don't charge Bond buyers a penny for the service.
☐ true ☐ false
10. You can have somebody else buy your Bonds for you.
☐ true ☐ false

ANSWERS

1. 7 1/2 years is correct.
2. True. What's more, federal tax on E Bond interest may be deferred until the Bond is redeemed.
3. Generally speaking, true. You must be either a resident; a citizen living abroad; or an employee of the U. S. military or civilian.
4. In spite of the fact that Bond-buying was nearly universal during the war years, the correct answer is 1963.
5. You're right no matter which answer you checked.
6. False. Any bank will redeem your E Bond anytime after the two-months' holding period.
7. A Series E Bond will keep growing for 10 years past maturity. Extension is automatic.
8. True. If you had a \$100 Bond, for instance, you could get cash for 75% its current value, and have smaller Bonds issued for the balance.
9. True. Banks and other financial institutions offer this valuable service free.
10. True. A perfect example is the Payroll Savings Plan. You can buy Bonds for other people, too. In fact, they make excellent gifts.

Woman Dies As Her Home Burns At Eagle Park

Mrs. Ruby McNeace, 72, of 200 Hare street, Eagle Park Acres, was burned to death in her home at 3:15 a.m. Friday as a result of a blaze attributed to her coal heating stove.

Mrs. McNeace, who resided alone, was found by Venice firemen at 6:45 a.m. in the still smoldering embers of the home. An accident verdict was reached on an inquest conducted Friday afternoon by Deputy Coroner Francis Lahey.

When summoned to the scene, the Venice department had been alerted that the woman was still inside the one-story, four-room frame home. However, it was completely engulfed in flames and no rescue effort was possible.

The stove blamed for the fire was in the living room. Burned beyond recognition, Mrs. McNeace was found lying on the kitchen floor. The inquest jury attributed death to second- and third-degree burns over the entire body.

Firemen remained at the scene initially until 4:30 a.m. The structure had burned completely to the ground, but there was still too much heat for them to look for the body. They returned at 5:30 a.m. Friday and located the remains about an hour later.

First call for help was received from Lynn Kinney, 2884 Waterman avenue, a full-time employee who was working in the Eagle Park Acres area.

Police and firemen also were called by the victim's daughter, Mrs. Nannie Henry, who lived several homes away. It was she who reported that the elderly woman probably was trapped inside the building.

The fire made it necessary for Illinois Power Co. crewmen to cut electric wires near the home.

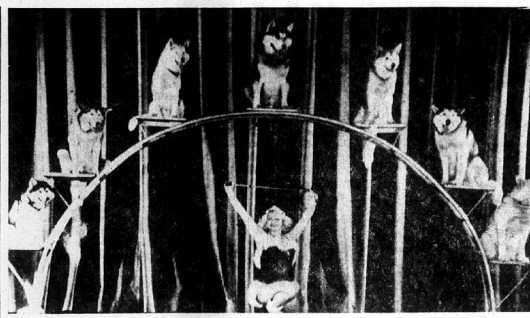

Illinois Power Directors Declare Regular Dividends

The board of directors of Illinois Power Co. at a meeting held Thursday in Decatur, declared regular quarterly dividends of 1 cent per share on the 4.68% cumulative preferred stock; 52 1/2 cents per share on the 4.26% cumulative preferred stock; 53 1/2 cents per share on the 4.42% cumulative preferred stock; 54 1/2 cents per share on the 4.70% cumulative preferred stock; and 35 cents per share on the common stock of the company.

These dividends are payable Feb. 1 to stockholders of record on Jan. 10.

Mrs. Walls Gets Divorce

Mrs. Cora W. Walls, Granite City, obtained a divorce from Roland D. Walls, Milford, Del., Thursday in Madison county circuit court in Edwinstown. Judge Harold R. Clark signed the decree. They were married April 16, 1930, in Delmar, Del., and separated Nov. 12, 1936. She charged desertion for two years.

SEVEN ALASKAN HUSKY DOGS that will perform in the A. O. Smith Family Circus will be staged Sunday along with five other circus acts and other entertainment. The program for employees and families will be given at Granite City high school gymnasium at 1 and 3:30 p.m.

Allocations Listed For 18 UF Agencies

Full allocations will be awarded to 18 participating agencies by the Tri-Cities United Fund although the fund drive is still about \$13,000 short of its \$312,213 goal.

The allocations are: American Red Cross, Tri-City Chapter, \$20,000; Aid to Retarded Children, \$5000; Boys' Scouts of America, Cahokia Mount Chapter, \$40,000; Boys' Town of Illinois, \$40,000; Catholic Charities, \$30,000; Coordinated Youth Services, \$18,000; Family Service Agency, \$15,000; Girl Scouts, \$15,000; Bluffs Council, \$17,000; Health Services Fund, \$9,000.

Illinois Childrens Home & Aid Society, \$34,000; Madison Teen Town, \$48,000; Madison County Mental Health Association, \$9,000; Protestant Welfare Association, \$15,000; Salvation Army, \$20,287; United Service Organizations, \$20,000; Visiting Nurse Association, \$32,000; YMCA, \$51,000; and YMCA Teen Town, \$84,000.

Additional donations and the contingency reserve will take up the shortage. The United Fund reported a total of \$88,734.30 in cash had been received through Nov. 30 with \$3,141.97 used for campaign expenses.

Coin Shortage Felt, But Not Serious Here

The nationwide coin shortage is being felt in the Quad-City area but there is no serious problem, according to spokesmen for four area banks.

The First Granite City National Bank reported it was not short of coins. The bank's coin department and Granite City Trust & Savings Bank said there was a shortage a few weeks ago but there is none now.

But a spokesman for the American National Bank in Granite City said the institution's supply of nickels and dimes is running low. "We're getting by one way or another," he said, "it's nothing particularly serious."

An official of the First National Bank in Madison said, "We've had our troubles, but we've been able to provide enough coins for our customers."

No one seems to be able to explain the shortage which has the Treasury Department sending communique to banks asking them to encourage customers to keep coins in circulation.

One theory is that vending machines and parking meters are gobbling up the coins in record numbers. Another is that retail sales during the Christmas rush are absorbing the hard money.

Christmas TB Seal Drive \$12,000 Short Of Goal

Of the Christmas Seal letters mailed to 60,000 residents on Nov. 15, Joseph Schroeder, president of the Madison County Tuberculosis Association, reported today a total of 17,000 have been answered and \$28,000 collected.

The goal of the Madison County Tuberculosis Association is \$40,000. This amount is needed in order to carry on a free chest X-ray program in 1964. Free chest X-rays are offered to the general public and industry throughout Madison county.

This year a total of 21,326 free chest X-rays were taken. The serious findings included 12 cases of tuberculosis and 28 chest cancers.

The Christmas Seals are our way of ringing your doorbell and asking for a contribution to help carry on a most important work in your community—the X-ray program," Schroeder said.

"Please answer your Christmas Seal Letter today," he urged.

\$24,000 Storage Building Shipped To General Steel

General Steel Industries, which dismantled a storage building at its Edgemoor, Ill., plant and shipped it to be erected at the plant here, was issued a building permit for the structure last week by Earl Bloomquist, building inspector.

A value of \$24,000 was placed on the structure.

The building, which has corrugated metal roof and sides, is in two sections and has dimensions of 36 feet, 10 inches by 62 feet and 45 feet, four inches by 123 feet.

Four other building permits were issued last week to bring the total for the month to nine with combined values of \$78,400. All but two of the projects are for industrial or commercial purposes.

The 2012 Land & Development Co., 2012 Madison avenue, received a permit to remodel apartments at that address at a cost of \$16,000. The work includes partitioning of walls, plastering, electricity, plumbing and flooring.

Morris Chapman, an attorney, was granted a permit to remodel and alter an old bowling alley at Niedringhaus and State to be used for office space at a cost of \$480.

Pete Murgis, 2409 Lincoln avenue, was given a permit to remodel a tavern at that address at a cost of \$300.

Waldo Frohardt, 2311 Edison avenue, received a permit to replace a roof with new sheeting at a cost of \$110.

No 25-Year Watches At GC Steel For '63

Granite City Steel Co. skipped its 25-year banquet for men this year. There wasn't a single man eligible to receive a 25-year watch, it was reported.

The banquet would have been held last week. The firm with about 3000 employees did hire in 1938, but apparently none of those hired that year stayed on the job the full 25 years.

However, there was a watch presentation for a woman employee. It went last week to Mrs. Elsie Eberhardt, who works in the purchasing department.

Frosty Fruit Punch Bowl

Do you want a glamorous way to decorate a chilled punch bowl with fruit frozen in an unusual way? This is the answer for holiday parties—Select a variety of the freshest and most perfect fruit you can find such as whole apples, oranges, lemons, limes, bunches of grapes. Wash and dry fruit, cut some in halves or slices. Be sure to clean grapes thoroughly and remove all loose stems. Place fruit on a tray and freeze at least 24 hours before your party. You can also place frozen fruit in plastic bags and return it to the freezer for use later.

At party time, arrange frozen fruit in punch bowl. Ice in center or to one side. Use large fruit at base of arrangement; use grape clusters at top to curve over the arrangement. She cut pieces of fruit for extra drama. Make arrangement low enough so some fruit will show above level of punch.

Carefully and slowly pour well-chilled punch into bowl. The chilled punch makes the frozen fruit cling together. Do not pour

onto fruit that shows above "punch line," so that frost will collect on the fruit. Use any colorful and clear fruit punch. Remember the fruit will float if you use too much punch in the bowl, or if you pour it too fast.

A Jacket For Junior... You'll be better off dry cleaning out-door jackets, even if they are labeled washable. Dry cleaning causes less shrinkage and less change in appearance. It is extremely risky to launder jackets that have no cleaning instructions on the label. Many times the lining will shrink.

Jackets of cotton-rayon poplin lined with taffeta quilted with polyurethane foam and nylon taffeta with a nylon pile knit lining seemed to be the most satisfactory, especially if dry cleaned. They are light in weight, do not shrink or stretch, and are good insulators and windbreakers.

A heavy garment is not necessarily a warm one. A jacket that contains one firmly woven fabric and one thick, resilient fabric offers the most comfort in cold, windy weather. Short pile on knit lining is more likely to retain a neat appearance after wearing and cleaning than long pile. Be sure to ask your retailer about the quality of fiber in the batting before buying a quilted lined jacket. The batting should be made of new, not waste fibers. Waste fibers tend to mat after cleaning.

How To Shop For "Good Buys" In Clothing
"Going out of business," "Must sell," "Great price reductions," "How many times have you seen these words while shopping for clothing? These sales occasionally turn up real bargains. But look twice before you buy. Be sure that the article you buy is in good condition and what you want because you can't return it.

Also check on whether the merchandise is in the store's regular stock. An unethical retailer, knowing months ahead that he's going out of business, might build up his inventory with cheap merchandise for that final sale.

Here are some other guides for shopping, especially at "bargain" sales. Be sure your purchase fills the bill so far as your situation is concerned. Nothing is a "bargain" if you don't need it or don't like it after you get it. Read ads carefully. Look for information on fiber content, care requirements and construction details. Also look for key words about the sales.

A clearance sale advertised as applying to "selected" merchandise indicates that only part of the store's stock has been reduced. Perhaps the store has "replenished" its stock "to give you a wider selection." This is a sign that some goods were brought in specifically for the sale. The new merchandise may not always be of equal quality. Cash in on low-loaders. These are not-bait items, but ones priced near cost in the hope that you will buy other merchandise as well when you visit the store.

For example, it may be a \$3 blouse for \$1. In this case the store may hope you'll buy the blouse and the suit displayed with it. Loss-leaders can be real bargains. Don't rush a trend.

Successful new styles are quickly copied by manufacturers. As these copies come on the market, prices may drop. For the greatest practicality, it's wise to wait to see if the "new look" is really a trend and not a fad. Understand the guarantee. If the label says fade- and shrink-proof, will the store stand behind its merchandise. Broaden out your shopping habits. You may have your favorite stores, but don't overlook the possibilities of good buys in other stores. Shopping around helps you recognize values when you find them.

Urge Use Of Five-Cent Stamps On Yule Greetings

Persons sending Christmas cards today at the five-cent first-class rate pay the same to mail Christmas greetings as Americans did well over a century ago, local postmasters noted today.

"Research shows that in 1847 the Post Office Department issued its first stamps, including a five-cent stamp for the basic pre-paid letter rate," they said.

"And, of course, in those days a nickel could buy a meal where it usually can't even buy a cup of coffee today."

"Since 1932," they added, "while living costs for the American family have skyrocketed considerably more than 100%, the cost of mailing a first-class letter has increased by only two cents, or two thirds."

National Tree
The comments were made in connection with recommendations to area residents to use the first-class five-cent Christmas

stamp on their Christmas cards. The stamp portrays the national Christmas tree on the eastern ellipse in the nation's capital. The stamp is available at local post offices.

"The five-cent rate permits forwarding or return of the letter where necessary, without the use of a handwritten message on the card, adding a personal touch and also provides expedient handling and faster delivery, particularly for cards going out-of-town."

"In recent years, people have been buying better and more expensive greeting cards, and it seems a shame, when only four-cent, third-class postage is paid and the addressee has moved, that we normally cannot even forward the card," the postmasters said. "It is poor economy to try to save a few pennies and lose several dollars worth of cards in the bargain."

"Reports from the greeting card industry indicate it is not uncommon for an average family to send more than 100 cards during the holiday season."

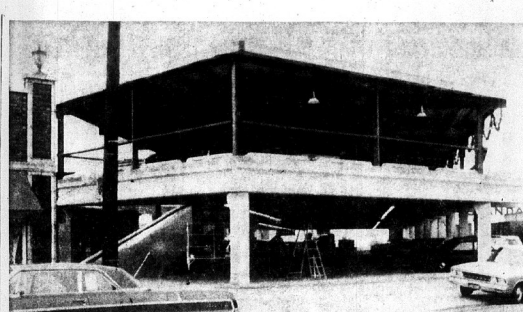

"To avoid trouble and waiting in line, we suggest that two sheets of Christmas stamps—100 to the sheet—be picked up when at the post office, and then there is no last-minute panic about getting stamps to put on cards to send to those who have been overlooked or added to the list."

Christmas stamps are useful for postage at any time, it was emphasized.

Keep Windshields Clean, Police Advice To Drivers

Quadrant motorists, with the arrival of winter, snowy weather, are being cautioned of the hazards of winter driving and warned to keep windshields free of snow and frost for a clear view of the street.

One of the most dangerous acts by drivers during winter months, police said, is failure to completely clear vehicle windows—both windshield and rear window—before driving.

"It is essential that drivers must remain alert and must be able to see what's ahead clearly, done is by clearing all windows before starting to drive," the traffic experts said.

Drivers are advised to "keep wipers and windshields clear." Winter driving requires a sharp and clear mind to cope with the hazards which may be encountered.

Many drivers, it was noted, fail to wait until the frost that covers a windshield has been cleared by a defroster before starting to drive.

Police said that frequently a windshield does not start to frost until the driver has gone a short distance. In this case, he should pull over to the side of the street or off the street and wait for it to clear.

"For safe driving," they advised, "drivers must remember to be alert to the hazards of winter driving and keep a clear view of the road ahead of them."

County Problems Group Gathering Report Data

A clearer picture of county finances in Illinois is expected to emerge from reports being collected at Carbondale by the County Problems Commission.

Under recent Illinois law, all counties must provide fiscal data to the commission, which designated the Southern Illinois University Public Affairs Research Bureau as its depository. In the past, there has been no single source for such information.

Irving Howards, associate director of the SIU bureau and consultant to the commission, said the reports contain county budget and appropriations ordinances, audits, tax levies and information on assessed valuations and tax rates.

Legislation providing for collection of county fiscal information resulted from the commission's report to Gov. Otto Kerner, and the 73rd Illinois General Assembly earlier this year.

The commission said the absence of a central source for such data was "an immense handicap for those who are seriously interested in alleviating some of the fiscal problems of the county."

Howards, who has been consultant to the permanent state commission since it was formed six years ago, said information submitted by the counties will be analyzed by the commission and is expected to result in further recommendations on fiscal operation of Illinois counties.

Cottage Parent Posts Open To Local Couples

Miss Maude Myers, state director of personnel, has announced that married couples are needed to qualify for a special cottage parent training program under the direction of the Illinois Youth Commission.

The program will be conducted at the State Training School for Boys at St. Charles in accordance with the Federal Manpower Development and Training Act. Married couples will receive cottage parent training for a one-month period. Training will consist of instruction in parental leadership and household management. The program is tentatively scheduled to begin Jan. 6, 1964.

Trainees will not be paid a regular salary during the first month of the seven-month training period. However, those who qualify under federal manpower development and training standards may be entitled to a normal training allowance.

Upon successful completion of one month of training, they may be considered for assignment to regular full-time cottage parent positions at \$395 a month at the State Training School for Boys.

Desirable qualifications consist of high school graduation plus some experience in recreational or other work with children. Married couples interested in being considered for the program must pass a basic written test and an oral interview. A physical examination also will be required prior to appointment.

The written tests and oral interviews will be held in Room 8 at 8 a.m. Friday, Dec. 20, at the Department of Personnel office, 221 N. 14th street, and in Springfield at 8:30 a.m. Monday, Dec. 23, at the Department of Personnel office, 221 S. 4th street. Interested persons should report directly to the most convenient test center. Additional information regarding the program may be obtained by writing to the Department of Personnel, 121 State House, Springfield.

Too Many Seniors At GCHS; Caps, Gowns To Be Rented

Prospective graduates — 625 caps and gowns available — less than 300.

These figures resulted in the Granite City school board deciding last week to have high school seniors rent their caps and gowns in the future, at a cost of about \$3 each. The district was the last in this area to possibly the last in Illinois to maintain its own supply of graduation robes.

It would have cost \$6500 to buy 265 new caps and gowns at \$20 each. Instead, the schools will sell their present supply for about \$2000. There are 337 on hand but between 50 and 75 of these are described as needing to be replaced.

Past graduating classes have helped to pay the cost of buying caps and gowns by contributing \$1.50 for each graduate from class accounts derived principally from boat excursion proceeds.

In the last three years, it has been necessary to assess each senior an extra \$1 for graduation to meet cap and gown, senior banquet, senior tea and others expenses. Cleaning of the robes costs 60 cents, and storage of caps and gowns is regarded as a problem.

Individually Fitted
While students will have to bear the rental fees, each will have an individually fitted gown and a fitted and sterilized cap and none of the robes will be shabby or faded, board members noted. It is planned to pay 35 cents from class funds so that each student can keep the tassels from his cap as a souvenir.

In other business, the school board:

Busy Session Slated For GC Council Tonight

A busy session is shaping up for tonight's Granite City council session at 8 o'clock. In addition to reports on the state-ordered sewage treatment plant construction, the council is to take up the ordinance now on first reading, to license bond and control warm air heating contractors, and possible amendments to the new electrical code.

At last week's session of council committee chairmen, a number of proposals were discussed for action to be taken by the council.

These include preparations for next year's city budget, possible hiring of five additional policemen in the next fiscal year, hiring an architect for a two-year project to revamp the department headquarters in the city hall, purchase of a postage machine for the city hall, consideration of new proposals for liability and workmen's compensation insurance, purchase of a procedure for street department materials.

Report On Unpaid Licenses
The chairman also has called for a report on unpaid city licenses by the former Community Coach Co. on its buses, concrete mixing trucks, taxicabs, pinball games, cigar machines and taverns.

The city has been notified that the state is refusing to designate Johnson road outside the city limits, as an arterial thoroughfare.

Warden B. Staff, chief highway engineer, said that Johnson road does not meet state requirements for arterial designation outside city limits, especially since Granite City has Franklin avenue and Lindell blvd. designated and they provide practically the same service as requested.

Johnson road east of Franklin avenue and north to Ponton road is partially outside the city limits. The city is trying to have it classed as arterial in order to use motor fuel tax funds for improvements.

Tavern Partnership
The council also has on its agenda, an application for a co-partnership operation of a tavern at 1600 Cleveland blvd. by Fay Burcham, 33, of 2908 Harding avenue, and Hartford Loman, 42, of 1708 Cleveland blvd. The city has been asked to change the name on the liquor license and bond of Big Top Bowl to Tri-Mor Bowl.

An invitation has been extended to the city to attend the Dec. 21 traffic procedure program to be held at Newton high school, Collinsville, for justices of the peace, police magistrates and city judges, starting at 9 a.m., is to review changes under the new judicial act which start Jan. 1. It is being conducted by the Third and 20th Judicial Circuits. Chief Circuit Judge James O. Monroe in a separate letter advised the city and circuit judges have not yet decided on the exact form for a uniform traffic ticket.

The report of the Special Police committee on its Dec. conference with the state, the Water Board at Springfield is to be presented.

May Change Bond Issue
The chairman, Charles W. Moerlein, reported last week that it was unlikely the proposed revenue bond issue ordinance would be presented this evening since the amount might be changed, depending on where the Granite City Army Depot disposes as the location for the treatment plant.

Moerlein said the council chairman that if the depot calls for the location on its property near the Chicago avenue, it will be necessary for the city to stall a lift station for the Nid-

ringhaus avenue sewer trunk and build sewers to the treatment plant.

The city hopes to acquire a 12-acre tract inside the depot near the present city sewage pumping station. There it would not need sewer connections or the lift station.

The city has until early January to approve the ordinance setting up the proposed \$1,715,000 revenue bond issue to build the treatment plant.

Dec. 1 Deadline Eased
A deadline of Dec. 1 had been set by the Sanitary Water Board, but the board's December meeting was postponed to January, and the deadline was eased.

To show efforts to meet the Dec. 1 deadline, the city council at a meeting on Nov. 26, the day the \$2,200,000 bond issue for the treatment plant project was defeated, authorized preparation of the \$1,715,000 revenue bond issue for treatment plant construction.

Moerlein explained to the council chairman that the Sanitary Water Board is compiling a priority listing of treatment plant projects to be forwarded in June to the federal government in order that municipalities of equal quality for federal grants. "We're certain to be near the top of the list," Moerlein said.

The council tonight also is to receive monthly financial reports and other reports of city officers.

The ordinance setting an annual license fee and bonds for warm air heating contractors was placed on first reading at the Dec. 2 meeting.

Corporation Taxes Set Record In State
Corporation franchise fees taxes set an all-time high figure of \$7,046,544 through November, it was reported at the Springfield office of the secretary of state.

The total was \$128,390 greater than collections for the whole record year previously set in 1961.

Certificates of incorporation were issued to 755 new Illinois business corporations during November, an increase of 152 over November 1962. Totals for the 11 months are 8071 new Illinois businesses, an increase of 228, 1323 out-of-state businesses, a drop of 49. In the not-for-profit field, there were 184 new Illinois organizations given charters, an increase of 21.
